

Circles Of Care

**Anishinabe Women's
Crisis Home & Family
Healing Agency**

**Have you
experienced
violence?**

**Are you involved
in child welfare
matters?**

The Circles of Care program will help you navigate these complex systems while supporting your journey toward healing. We provide services by creating circles of care to meet your cultural, mental, physical and spiritual needs.

Feel heard and understood in a safe space.

With an understanding of the unique needs of Indigenous women, our Family Support workers take a culturally rooted and holistic approach to help you.

With a focus on crisis management and mitigating the effects of violence, a Family Support worker can:

- Advocate on behalf of women and their families
- Assist with planning and goal setting
- Liaise with service providers
- Provide conflict resolution
- Navigate the child welfare system
- Focus on crisis management and stabilization of the family
- Provide awareness and education
